QUEEN SOLENOID VALVE

Explosion Proof 2-Way Solenoid Valves

	MA-P10~15-EXP	Pilot Operated	PT 3/8", 1/2"	Air, Inert gases, Water, Kerosene Oil, and Oil (Below 50cst)	Air: 0.1-16 Liquid: 0.1-15	90°C
	MD-P10~25-EXP	Pilot Operated	PT 3/8", 1/2", 3/4", 1"	Air, Inert gases, Water, Kerosene Oil, and Oil (Below 50cst)	Air, Inert gases: 0.3-16 Water: 0.5-16 Oil(50cst↓): 0.5-12	90°C
	MT10~50-BT	Pilot Operated	PT 3/8", 1/2", 3/4", 1", 1 1/4", 1 1/2", 2"	Air, Inert gases, Water, Kerosene Oil, and Oil (Below 50cst)	Water, Air, Inert gases: 0.3-10 Oil (50cst↓): 0.3-7	90°C

Note:

- (1) Voltage: DC12, 24V ; AC24, 110, 220, 380V 50/60Hz
- (2) NPT on request.
- (3) SS, SCS13, SCS14 indicate that the body material is stainless steel.
- (4) Body material FC: Cast iron , BC : Bronze, DI : Ductile iron, SCS : Stainless steel
- (5) The M10, M13, M16, M17 marking indicates a waterproof coil with an IP65 rating.

• Direct acting solenoid valves

With quick response and high-frequency operation, it works under vacuum, negative pressure, or zero differential without minimum pressure or flow requirements. It's compact, simple, and easy to install.

• Semi-direct acting solenoid valves

This solenoid valve combines direct-acting and pilot-operated designs, offering zero differential and high-flow operation without minimum pressure or flow requirements.

• Pilot operated solenoid valves

Suitable for high-flow and high-pressure applications, but the pressure differential range of the fluid medium is limited. A minimum working pressure differential and flow are required to operate.
